Tuesday 30 August 2016

10:30 Parallel tracks

Scandinavian track: Hvordan opnås arealoptimering ved deling (Shared space) og hvordan organiseres FM i kommuner?

Facilitators: Rikke Brinkø and Susanne Balslev Nielsen, CFM

Denne session sætter fokus på at optimere udnyttelsen af indendørs- og udendørs arealer ved at flere brugere gør brug af de pågældende faciliteter. Ideen om Shared space er måske FM's største bidrag til deleøkonomi og reflekterer samtidig nye måder at tilfredsstille behov for arbejdspladser mm. Efter en kort introduktion præsenterer PhD-kandidat Rikke Brinkø sin seneste version af "shared space typologien" samt en undersøgelse af Lyngby Vidensby og medlemmernes udtrykte behov for shared space.

Presentations based on research papers:

Eelis Rytönen: The Evolving Modern Workspace – From Organizational Offering to Serving Communities of Individuals
Susanne Balslev Nielsen: Centralizing Public FM Organizations: Danish Experiences with Success Criteria, Results and Realisation Processes

Med hjælp fra deltagerne ønsker facilitatorerne at kvalificere den FM faglige diskussion af hvordan man kan vurdere om der er potentiale for Shared space i en givet bygningsmasse.

12:15 Lunch

13:15 Parallel tracks

English track: What are the challenges for Sustainable Development of FM?

Facilitators: Antje Junghans, NTNU, and Susanne Balslev Nielsen, CFM

The focus of this session is to share an overview of the current pool of knowledge about sustainable facilities management (SFM), listen to the presentation of three new research papers and to identify the top challenges which need to be managed successfully to promote sustainable development of FM.

Presentations based on research papers:

Dave Collins: Green and Sustainable – How are These Terms Reflected in the Context of Facilities Management?
Andreas Økland: Flexibility as Enabler of Sustainability
Cristian Roberto Valle Kinloch: FM's Role Towards Energy Management in Automated Buildings: A Comparative Analysis Between Passive-House School and Office Buildings in Norway

A knowledge sharing exercise will produce a Top 5 of Challenges for Sustainable Development of FM with the active participations by everybody attending this session.

Scandinavian track: Hvordan kan vi skabe brugervenlige faciliteter?

Facilitators: Geir Hansen, Aneta Fronczek-Munter and Johan van der Zwart, NTNU

Denne session fokuserer på brugskvalitet / brugervenlighed af faciliteter (usability).

Presentations based on research papers:

Julie E. R. Indrelid: Integrating Security into Building Design and its Effects on FM
Svein Bjørberg: How FM may Contribute to Happiness - The Oscar Approach

Efter præsentationen af to forskningsbaserede papers præsenterer Post Doc Aneta Fronczek-Munter sin nyeste forskning om sammenkobling mellem usability programmering, evaluering, brugerinvolvering og design. Efterfølgende præsenterer Post Doc Johan van der Zwart sin forskning om usability evaluering på St. Olavs hospital i Norge. Afslutningsvis vil de introducere deres ny fælles projekt om Smart Hospital Architecture og vil debattere et par provokerende udsagn om usability emner.

15:00 Coffee break

15:30 Closing session

Chair Per Anker Jensen, CFM

Keynote: Perspectives on FM in Denmark and Europe?

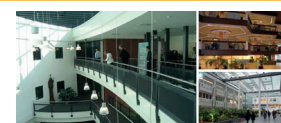

Susanne Balslev Nielsen, CFM and board member of EuroFM

Final remarks - Susanne Balslev Nielsen and Per Anker Jensen, CFM

16:15 Good Bye Reception and Book Launch

We say good bye and celebrate the publication of the new book over a drink.

You will receive a personal copy to take home or it will be sent to you after the conference.
